Introduction to Data Analytics

Data Analysis with Spreadsheets and SQL

Python Data Analytics

Statistics Foundations

Introduction to Data Management

Sep 3, 2025

## Innocent Udeh

has successfully completed the online, non-credit Professional Certificate

# Meta Data Analyst

In this specialization, learners developed and honed essential data analytics skills, including applying the OSEMN framework to data analysis, using SQL queries to pull data from a database, cleaning data using spreadsheets, and basic Python applied to data analytics. Learners also developed a foundational understanding of statistics and data management principles.
